Dear Arthur,

I knew there was something "special" about your spirit when we first had our initial phone conversation last year. I know my response to your dynamic presentation held at the Florence Civic Center is long over due. The overall results of the evaluations stated the following:

- "Awesome Speaker"
- "Thumbs up for the Keynote"
- "Outstanding, Fun Loving man"
- "When will he be back?"
- "Where did you find this man?"
- "Excellent presentation, very motivating and energetic"
- "Arthur where have you been all my life?"

Words of appreciation and thanks are nothing compared to the impact you left on my staff of Darlington County. It's a month later, and folks are still raving about what happened in Florence, South Carolina at the Civic Center. I've had other Director's call to find out what happened as well, because their staff came back so excited and motivated. They wanted to know who was Arthur Andrews? You just don't know what you did for my staff and the others who were in your presence. The Mark of Greatness was truly bestowed upon us that day. It placed us all on another level of thinking... planning... doing... & ...giving to those we serve and mentor to everyday. The personal stories shared helped my team envision their true purpose for being in this place at this time in their lives. It allowed us to focus on our mission, and goals as an agency who provides services to those so young and fragile. That day helped lay another foundation for personal growth & development. My team has a new outlook on providing services and it has shown since the event. The spirit of your message is alive in Darlington, South Carolina.

Arthur you are a dynamic "JEWEL" to your profession. We are your "home folk" and make it known that our doors are always opened to you .

Once again, thank you for expanding our consciousness!
