Dear Arthur:

Thank you for the phenomenal training that God endowed you to deliver to the OCAB Head Start Program on January 6, 2004. The staff is still talking about how great the training was.

There is no doubt in my mind that it was not by accident or chance that our paths met. The message you brought to the staff here was timely, relative to the needs of the staff, and presented in such a manner that they had fun while learning "The Art of Creating and Achieving Massive Success." Your ability to relate to the wide spectrum of personalities brought staff on one accord for the training and made for a very attentive audience. Also, the humor that you incorporated was an added plus.

Words cannot express the impact that your training and energy you brought had on the staff. Although all evaluations of the training have not been returned, here are some of the comments I received: "You got the right trainer this time"; "I was crying because he was talking about the same thing I was going through"; "I'm definitely going to do a better job"; "Now, he was great!"; "You've got to have him back."

I must say that just the association with you in making preparations for the event had a tremendous impact on my life. So, keep spreading your message.

Sincerely,

Necole Stroman
